of the population in the EU is at risk of
POVERTY and social exclusion!

This year, the European Meeting of People Experiencing Poverty addresses the topic of Poverty & Access to Education.

Let's make education a way out of poverty!

Over a hundred people experiencing poverty from 32 European countries are gathering in Brussels to share their knowledge and experience with each other, with EU decision-makers and all the stakeholders.

For EAPN, education is a fundamental right that should be accessible to all and not solely seen as a means to access the labour market.

BE PART OF THE CHANGE WE NEED!
